# Everything under control

with KramerAllrad to clear the way.

**Winter service requires plenty of backbone: a rigid frame, sound footing  
and intelligent strength.**

Rain, snow and ice will show how much you can rely on your machine,  
putting it to the toughest tests possible:

- Four wheel drive and steering is a must.
- Rigid frame ensures stability for safe manoeuvres on slippery roads and around tight bends.
- Intelligent hydraulic system for your assistance.
- High-comfort cab so the driver can fully concentrate on his work.
- Excellent and lasting return on investment with a large number of attachments, and enhanced system compatibility within Kramer's loader range.

**kramerALLRAD®**

**kramerALLRAD®**

Full power  
at all times with Kramer  
versatility and safety.

Kramer machines  
perfect for tackling  
the full scope of  
winter services.

Rest assured and put money worries aside:  
KRAMER LOADERS WILL HELP YOU  
KEEP A FIRM GRIP ON YOUR COSTS.

**Winter service options**

- Protection for application in aggressive environment
- Fuel preheating
- Engine and hydraulic oil preheating
- Night heater
- Heated rear window
- Heated rearview mirrors
- Working light
- Xenon headlights
- Rotating beacon
- Winter tyres
- Snow chains

**Winter service attachments**

- Snow plough
- Grit spreader
- Wide spreader
- Snow bucket
- Snow cutter
- High-tilt bucket
- Salt pusher
- Special rotary broom for snow

**Multipurpose Kramer machines always get the job done – well.**

- Winter service means working hard day and night, pushing man and machine to their very limits of endurance.
- The responsibility of communities and private services, winter service has an immediate effect on road users.
- The weather is never predictable and only flexibility, reliability and readiness for action of both man and machine will help deal with critical situations.

**Standard scope of applications**

- Loading snow
- Clearing snow
- Storing salt
- Spreading salt

**Loading gritters**  
Left: Wheel loader with high-tilt bucket  
Centre: Telescopic loader with standard bucket  
Right: Telehandler with standard bucket

**For clearing snow. For gritting and spreading salt.  
And for anything else you can think of.**

- Scheduled service or emergencies during the night: logistics is of crucial importance for winter service. All elements must be perfectly coordinated – when it comes down to the essentials, a chain is only as strong as its weakest link. So reliability is an absolute must.
- Face the winter challenge with Kramer loaders: versatile, manoeuvrable, strong and safe machines for lasting profitability and guaranteed value for years to come.

**No winter service without a snow plough –**

easily handled and manoeuvred with precise steering, small track circles and the superior comfort of Kramer machines.  
Day and night.
